CUSTOM COURSE DEVELOPMENT

At the Safety Council of Southwest Louisiana, we are committed to helping you ensure safety first, always.

Through our custom course development, we can develop the training needed to meet the needs of your changing workforce. Custom instructor-led, online and blended learning solutions are designed specifically for your organization.

We listen, understand and convey your information into professional training with impact.

1201 Ryan Street • Lake Charles
3621 E. Napoleon Street • Sulphur
(337) 436-3354 | SAFETYSWLA.ORG

With more than 63 years of experience being the area leader in safety, we know how to:

- Increase employee engagement
- Save time and money by covering only relevant topics
- Input your organization's specific processes and procedures

BENEFITS

COMPANY-SPECIFIC TRAINING

Our professional e-learning team will meet with you to determine the right approach for you, your business and employees. Whether you need a site-specific onboarding or safety training courses, we can design and deliver a custom-made solution.

QUALITY ASSETS

We will develop attractive, user-friendly courses in an easy, accessible and flexible format, including professional voiceovers, infographics, and test banks. Our high-quality training offering presents consistent information, tests your participant's comprehension and maintains a secure record of the results.

COST EFFICIENT

We are proud to offer tailored training options for your business at little to no cost. Courses are hosted in our database system, and you are charged only for the costs of the employee completing the course in our state-of-the-art computer lab.

Our approach ensures that your custom safety training project will meet your needs and budget. Our team will keep you involved at every step of the way.

DEVELOPMENT PROCESS
